

CANADIAN PACIFIC
LINER TORPEDOED

AN ATLANTIC PORT, Sept. 11.—Officials of the Canadian Pacific Steamship Company here today stated that they had received a cable stating that their passenger liner Mississauga, west-bound from an English port, had been torpedoed and probably sunk. The cable gave no details.

The Mississauga was a twin-screw ship built at Glasgow in 1914 for the first-class cabin and third-class passenger trade of the Canadian Pacific Steamship Lines between London and Montreal. She had been taken over by the admiralty for carrying American troops to England. She was 12,400 gross tons, 560 feet long, 64 feet beam, 38 feet depth of hold, and had an average speed of seventeen knots an hour.

BULGAR KING RETURNS

AMSTERDAM, Sept. 11.—King Ferdinand of Bulgaria returned to Sofia on Sunday, according to a dispatch received here from the Bulgarian capital.

King Ferdinand of Bulgaria had been undergoing treatment at Bad Nauheim, Germany. The King arrived at Bad Nauheim unexpectedly August 7. He reached there with the Bulgarian crown prince, and while in Germany traveled incognito as Count von Kurany. On August 19 the King was visited by Emperor William.

KILL ALL WHO
ADVISE SURRENDER

WITH THE AMERICANS IN FRANCE, Sept. 11.—A general order advises all American units to adopt a policy during battle of killing any one who suggests surrendering.

This policy originated with a certain unit fighting at Fismette, where operations were hampered when some one in an American uniform ran about shouting that further resistance was not necessary and that, therefore, the troops should surrender. This was probably a German propagandist.

The unit was advised to kill any one suggesting surrender, and all American troops are following the same plan. This means it will go hard with any German propagandist attempting to injure the morale of our soldiers in battle.

German prisoners taken in Alsace report the Kaiser's soldiers are eagerly reading allied propaganda tracts which are thrown into their trenches despite the order from the German command forbidding soldiers to read such literature and offering a reward for all tracts brought in.

GETS 1,000TH VICTORIA CROSS.

LONDON, Sept. 11.—The 1,000th Victoria Cross has just been awarded by King George to Lance Corporal Thomas Leslie Oxford, an Australian. Before this war, only 522 awards of the honor had been made in fifty-six years.

SEEING THINGS

DR. VAN SCHAICK
TELLS OF BOMBING

Germans are continuing to bomb Red Cross hospitals in Belgium, according to cables to the American Red Cross here today. In one hospital visited by Major John Van Schaick, of Washington, German aviators bombed a hospital in which the life of a ninety-eight-year old woman was saved when she left her bed to say her prayers. The bomb hit the pillow which she left.

Let the noise of quarters and dollars pouring into the U. S. Treasury announce to the world that this country is united. Buy War Savings Stamps.

Captured Yank
Fights for Freedom
And Escapes Foe

WITH THE AMERICANS IN FRANCE, Sept. 11.—How a captured American soldier escaped from a German patrol and kept armed boches at bay by throwing rocks at them was told here today.

North of Toul the American was seized and carried off by the enemy squad. He suddenly broke away and dashed into a shell hole. There he seized rocks and pelted the Germans, standing them off until one jumped upon the American. With a trench knife as his only weapon the Yank killed the boche, and sprinted across No Man's Land, reaching his own lines uninjured.

POLICEMAN SHOTS
180 BLACKBIRDS

Sergt. Richard H. Weedon, detailed at police headquarters, is a true marksman. In three days he has taken the measure of fifteen dozen blackbirds in the marshes off Gravel creek, below the railroad bridge. When he reported for duty at police headquarters last midnight he brought to the detectives and office force on duty four dozen fried black birds he shot yesterday morning.

On Friday, Sergeant Weedon killed six dozen of the birds, and five dozen on Saturday. His gunning companion, "Strike" Turvey, yesterday shot seventy-five black birds.

HOLD PRIMARIES
IN TWO STATES

Every man in Congress, and politicians in Washington generally, are watching the results of two primaries which will be held today—in Illinois and in Georgia. These States are the last to hold primaries (this fall, with the exception of Massachusetts, where they will be held September 24).

In Illinois there is intense interest in the contest in the Republican primaries over the nomination for Senator. The leading candidates are McDill McCormick and G. E. Fox, both members of the House, and Mayor W. H. Thompson, of Chicago. On the Democratic side it is conceded Senator James Hamilton Lewis will be renominated.

In Georgia there is a fierce struggle over the nomination for senatorship in the Democratic primaries. The leading contestants are Senator T. W. Hardwick, Congressman W. S. Howard, and W. J. Harris.

Influence of the Wilson Administration has been thrown to Harris in Georgia and against Senator Hardwick. Congressman Howard is not receiving Administration encouragement.

Senator Hardwick opposed the Administration in a number of votes relating to war matters. He was strongly against the draft. He has been making an intensely active campaign for renomination.

REPUBLICANS WIN
ELECTION IN MAINE

PORTLAND, Me., Sept. 11.—The Republicans have won a general victory in the biennial State election. United States Senator Bert M. Fernald, Congressman Louis B. Goodall, Wallace H. White, Jr., John A. Peters and Ira G. Hersey and Gov. Carl B. Milliken all were re-elected over their Democratic opponents.

With forty-five small towns and plantations, largely Republican communities, still to be reported, Fernald's vote stands at 64,852 against 52,533 for Elmer E. Newbert (Dem.), a majority of 12,319.

The same returns gave Governor Milliken 62,298, and Bertrand G. McIntyre (Dem.), 57,079, a majority for Milliken of 5,219.

In the Congressional contests three of the four successful candidates gained over their showing of two years ago, the exception being Congressman Hersey in the Fourth district.

For the State senate the Republicans appeared to have elected thirty of their candidates as against one Democrat, a net gain for the Republicans of four; while the house in coming year probably will be composed of 112 Republicans and 33 Democrats, a net Republican gain of 14.

LOYALTY ISSUE AT
STAKE IN GEORGIA

ATLANTA, Ga., Sept. 11.—After one of the most exciting campaigns in the history of the State, voters are casting their ballots for United States Senator, governor, State house

THINKS APHASIA
VICTIM HIS WIFE

LANSDALE, Sept. 11.—William F. Moore, a chauffeur, of 508 Green street, believes the pretty aphasia victim who is in St. Mary's Hospital, Chicago, and claims her home to be in Lansdale, though she is unable to remember her name or any other particulars about herself, is his wife.

Mr. Moore says his wife left him by agreement five weeks ago and he has had no word from her since. The first intimation that there was anything wrong with her came when a fellow-workman showed him the story from Chicago, which was printed in the current issue of the Lansdale Reporter. Moore fell in a faint when he read the report.

Description Tallies.

"The description sent out from Chicago," said Mr. Moore, "said the woman in the hospital had dark hair and eyes, and was about twenty-six years of age, weighed 160 pounds and was handsome. My wife was dark, weighed 160 pounds when she left here five weeks ago and would be called a handsome woman. We were married eleven years ago when she was fifteen years old and was twenty-six on August 23.

"Another thing that makes me think the woman is my wife is the fact that she was of a highly nervous temperament and I have often felt that she might have something wrong with her mentally at times.

Father Is Coal Operator.

"Her father is William Davis, a well-to-do coal operator of Doylestown, Ohio, and she is heir to about \$4,500 from her mother's estate, \$500 of which she has received, to my knowledge.

"When we agreed to separate she took two of the children and I took the other two. She said she was going to Philadelphia to get a place to work. A positive identification can be obtained by ascertaining if the woman in the Chicago hospital has a scar made by a burn. This scar is on the instep of one foot, is about the size of a half dollar and is so pronounced that it shows through her stocking when she wears low shoes."

Mr. Moore has sent out to Chicago for particulars, but is convinced that the bewildered woman is Mrs. Moore.

ASKS \$10,000 DAMAGES

G. Manson Foote has filed suit for the recovery of \$10,000 damages against the Auto Livery Company on account of personal injuries claimed to have been received by him on February 10. Mr. Foote claims that he hired an automobile from the defendant's company which was in charge of a chauffeur furnished by the company.

He alleges that when in Hyattsville, Md., the chauffeur negligently failed to keep the automobile under control and collided with a freight car which was crossing the road. Mr. Foote claims that he suffered severe injury to his head, and has been permanently affected in the back. He is represented by Attorneys Bynum E. Hinton and Wilton J. Lambert.

HAWAIIANS ARE CADETS

ANNAPOLIS, Md., Sept. 11.—Two Hawaiians have been appointed to the Naval Academy, and will be the first of that race to become midshipmen, if they pass their examinations. They were in Annapolis yesterday, and made arrangements to become students in the preparatory school conducted by Prof. R. L. Wertz.

The youths are William A. Kanakania, of Honolulu, and William H. Beers, Jr., of Hilo. They are cousins. Beers has an American father, and Kanakania is of full blood. They come with excellent credentials in every way, and have attended school in this country for some time.

SET ALTITUDE RECORD

CHICAGO, Sept. 11.—A height of 23,500 feet, claimed to be a world's record for altitude by a two-engine airplane, was reached by Lieut. M. B. Kelleher, who flew from the United States war exposition grounds in Grant Park Monday with a passenger. Lieutenant Kelleher and his passenger used a new oxygen apparatus. They were in rarefied air for forty minutes, however, and were compelled to descend when their oxygen began to give out.

1919 AUTO SHOW OFF.

The 1919 automobile show in New York, has been called off by the manufacturers because of the curtailment in the industry and pressure of war business, the War Industries Board announced today.

How to Save Food

In these days when the high cost of living pinches nearly every home, no waste should be overlooked. One of the most flagrant and most easily prevented is the destruction of food by rats. One rat will often do a hundred dollars' worth of damage and properly in a single night, and a careful estimate gives over \$200,000,000 as the value of foodstuffs destroyed annually by these pests. Exterminate them with Stearns' Electric Paste and save this enormous loss of food. A small box of Stearns' Electric Paste costs only a few cents and is usually enough to completely rid the house of rats and mice, also effective against cockroaches and waterbugs.
